

ENVIRONMENTAL AND ENENERGY POLICY STATEMENT

The Management of Personna International CZ, s.r.o. are committed to a duty of care to the environment by the minimisation of any environmental effects from our operations and by ensuring that production waste is disposed of by the most environmentally responsible means available.

We believe that the health and safety of the people involved in all of our operations, the quality of our products and the protection of the natural environment are all highly integral and important to the success of the site and the Business.

General Statement of Intent

We shall, as a matter of policy:

- Comply with all applicable environmental laws and regulations relevant to our operations, product development and distribution activities.
- Economise in energy, water and natural resources to minimise the impact on the environment.
- Continuous improvement of our energy efficiency in the facility as well as in the purchasing of products and services.
- Support projects and proposals which strive for better energy efficiency.
- Reduction of energy consumption and environmental improvements are evaluated in a systematic statistical way per amount of goods produced annually.
- Ensure that any waste products are handled and disposed of safely and with respect to the environment.
- Work to minimise waste and foster materials recycling where possible and conduct safe disposal of remaining waste by utilising safe and responsible methods.
- Inform, train and motivate our employees to carry out their activities and responsibilities in a safe and environmentally responsible manner.
